Together with a stated commitment to educational quality and excellence the number of potential students ensures the proposed school is indeed sustainable.

What will be your next steps to secure parental support and student enrolments?

- To promote the school amongst parents and the community at this stage without approval from Government is speculative and premature. It would be irresponsible to raise parental and community expectations in the knowledge that nothing is certain.

- However, a possible way forward could be to run a series of information evenings that invites parents to consider enrolling their children into a new school that extends on the kura kaupapa Maori education in a seamless way, with opportunities to acquire good English verbal and written skills, as well as the acquisition of a third language. The very real fear held by many parents is that their children could be disadvantaged because of a lack of English communication skills. Yet they do want their children to lose their fluency in te reo Maori either.

- The obligation of parents to take on an active role in supporting the education of their children and the school is a useful way of securing parental support e.g. their direct involvement at powhiri, wairanga, coaching, school hands-on, musical instruction, fund raising to name some.

How would you engage with the parent community on an ongoing basis to ensure their engagement with, and support for, learning?

The school is an extension of the Whanau. Whanau will be encouraged to support the school by way of participation at a governance level, fundraising, accompanying students on field trips and supporting extra-curricular activities negotiated with the lead teacher. Whanau will play a significant role in the school and therefore the education of their children.

Describe the relationships, if any, that you have established to generate engagement in and support for the proposed school. This can include businesses and organisations beyond the immediate geographical community.

The location of the school in the CBD offers huge opportunities in terms of building relationships with a diverse range of business and employer stakeholders. Major employers of the Bay of Plenty such as the Port of Tauranga, stevedoring and engineering companies are all located within a 1km radius. These and other businesses both large and small can be approached at the appropriate time.

Evaluation

Reviewers will be looking for:

- evidence that your choice of location and proposed student population is based on some genuine community engagement and identified support

- an understanding of ways to engage with the proposed community, including
parents, and
- steps that have been taken to secure support from the wider community.

13. OPERATIONS PLAN

1. Leadership and Governance

List the known members of the school's proposed governing board and leadership team including their roles within the school. Include a brief description of the qualities, competencies and qualifications that each person brings to their role. Please provide as Attachment 1.

Evaluation

Reviewers will be looking for evidence of:
- a clear organisational structure with personnel who are capable of contributing the wide range of experience and expertise that will be needed to oversee the establishment and operation of a successful school; and,
- evidence of an understanding of the differentiation between governance and management.

2. Staffing

Provide as Attachment 2, an indicative staffing chart for the school. The staffing chart should identify positions to be established in 2014 as well as positions to be added in future years. This information should include proposed:
- school leadership
- teaching positions
- support staff, and
- operational staff.

Please include the nature of qualification/experience which will be expected for each group. This chart should only identify positions, not specific individuals.

Evaluation

Reviewers will be looking for a staffing chart that clearly identifies roles that will support the statement of purpose and goals of the school.
Complete the following table for the year levels your school intends to serve.

<table>
<thead>
<tr>
<th>Year Level</th>
<th>2014</th>

</tbody>
</table>

Describe the rationale for the number of students and year levels served in 2014 and the basis for any planned growth.

Key points:

- The low teacher / student equates to an effective learning environment and is appropriate to ensure the success of a new education concept.
- The 2014 intake of 40 students (at Year 7 & 8) is the basis for intakes for each of the following years, but fails to take into account losses of students for whatever reason over the 5 year period.
- Intakes of 40 students per annum caters for the number of students exiting from local kura kaupapa Maori intending to extend their Maori medium education.

Evaluation
Reviewers will expect a table which demonstrates sustainable growth and a rationale which supports the statement of purpose.

4. Proposed Facilities

What facilities will you need to accommodate your school at set-up and at full enrolment?

- 2014 – Temporary facilities will be leased in the Tauranga CBD during the establishment phase. These will be of a high standard and accessible to public transport, council owned facilities e.g. Library, Swimming pool, sports fields, gym and beach. Learning space must have excellent natural and artificial lighting, toilets and ablutions of a high standard, large kitchen and eating area. Learning areas will have excellent acoustics, be airy and spacious where multiple activities can be carried out simultaneously.

- Parking spaces for staff and mini-buses must also be factored in to accommodation needs.

- 2018 – At full enrolment the school will have secured a long term lease of say several floors of a commercial property to the aforementioned standards located in the CBD.

Describe how you intend securing these facilities.

The school will engage a real estate firm to identify a suitable commercial property in the Tauranga CBD.

Evaluation

Reviewers will expect to see evidence that you know what facilities you need to support your school as it develops and how you will go about securing these.

C. BUSINESS PLANNING

Establishing a Partnership School | Kura Hourua will require expertise in areas such as:

- financial management
- fundraising and development, and
- accounting.

How will you access this expertise?
Financial management and accounting – A chartered accountancy firm known to the Sponsor which will be appointed to provide financial scrutiny over the school’s finances. This will involve compiling a budget, regular monitoring of income and expenditure, monthly financial reporting and annual statement of accounts.

Business advice will be provided by a reputable businessman known to the Sponsor as well as a representative of a major trading bank operating in Tauranga.

Fundraising and development – The same people who organised fundraising for the successful Rangataua Rangatahi Excellence in Education Awards 2012 will fundraise for the proposed school.

Describe any partnership arrangements that you have in place or planned to support the business plan and the operation of the school.

Entering into partnerships at this stage is premature and can only be speculative. However, likely partnerships are likely to be explored with:

- Corporate sponsors of the annual Rangataua Rangatahi Awards for Excellence in Education 2012
- Local Maori whomu land trusts currently involved in kiwifruit production many of which already make available education grants to beneficiaries on an annual basis.
- Iwi of Tauranga moana
- Tauranga business community

Evaluation

Reviewers will be looking for evidence that:
- the school has access to financial expertise, and
- partnerships are appropriate and support the statement of purpose and goals.

Staff Appointments:

Tumuaki | Principal

- Bachelor of Education in Teaching preferably Masterate
- Registered with New Zealand Teachers Council | Te Pouherenga Kaiako o Aotearoa
- Has held senior management position in Wharekura | Maori medium secondary
- Fluency in te reo Maori
- In-depth knowledge of Te Matauranga o Aotearoa & New Zealand Curriculum
- Demonstrated ability to innovate and take risks
• Excellent communicator
• Demonstrated ability in building relationships with Whanau and external agencies

Teaching staff – minimum requirements

• Bachelor of Education in Teaching
• Registered with New Zealand Teachers Council | Te Pouherenga Kaiako o Aotearoa
• Experienced teachers
• Fluency in te reo Maori
• Ability to teach a particular subject area (mātauranga) x 5 from both Te Matauranga o Aotearoa & New Zealand Curriculum
• High professionalism
• Demonstrated ability to innovate
• Commitment to go that ‘extra mile’ for students
• Ability to create a rapport with young people and parents
• Team player

School Administrator

• Proven administrative ability
• Professional
• Excellent communicator
• Ability to work as part of a team

The school is reliant on volunteers for specialist instruction e.g. swimming instructors, fire arm safety, bush craft, musicians, waka ama instruction etc.
