INVESTING IN EDUCATIONAL SUCCESS - IES
Blenheim Community of Schools (2BCOS)
2015 – 2018
Executive Summary

We have identified the following achievement challenges

**MATHEMATICS**
641/3115 students Year 1 to 8 are below the standard.
We aim to reduce this to 467 or less by 2017 (85% or greater success rate).

Māori 138/524
We aim to reduce this to 78 or less by 2017 (85% or greater success rate).

Pasifika 69/136
We aim to reduce this to 20 or less by 2017 (85% or greater success rate).

**READING**
500/3115 students Year 1 to 8 are below the standard.
We aim to reduce this to 467 or less by 2017 (85% or greater success rate).

Māori 117/524
We aim to reduce this to 78 or less by 2017 (85% or greater success rate).

Pasifika 54/136
We aim to reduce this to 20 or less by 2017 (85% or greater success rate).

**WRITING**
748/3115 students Year 1 to 8 are below the standard.
We aim to reduce this to 467 or less by 2017 (85% or greater success rate).

Māori 162/524
We aim to reduce this to 78 or less by 2017 (85% or greater success rate).

Pasifika 61/136
We aim to reduce this to 20 or less by 2017 (85% or greater success rate).

**NCEA LEVEL 2**
85/424 (20%) of students leave without NCEA Level 2
We aim to reduce this to 63 (15%) or less by 2017.

24/72 (33%) Māori students leave without NCEA Level 2
We aim to reduce this to 11 (15%) or less by 2017.

5/15 (33%) Pasifika students leave without NCEA Level 2
We aim to reduce this to 2 (15%) or less by 2017.

Background

Blenheim Community of Schools 1 & 2 is made up of 21 schools in the Blenheim Region:

In alphabetical order:

Blenheim School, Bohally Intermediate, Fairhall School, Grovetown School, Marlborough Boys’, Marlborough Girls’, Mayfield School, Rapaura School, Redwoodtown School, Renwick School, Richmond View School, Riverlands School, Seddon School, Spring Creek School, Springlands School, St Mary’s School, Tua Marina School, Wairau Valley School, Ward School, Whitney Street School, Witherlea School
The BCos’s are part of the Marlborough Principals Association (primary and secondary), which has worked together on a variety of teaching and learning projects, over a long period of time, to raise student’s achievement.

There are only two secondary options in this area: MGC and MBC so the natural pathway for the majority of students in these 21 schools is to one of the two colleges.

Process for Engagement

The 2BCoS has met as a whole group and because of the size of the 2BCoS established a Working Group to do the initial planning. At various stages the group met to discuss progress before the draft plan was presented to the Boards of Trustees for review and then finally to the combined community for feedback.

The 2BCoS used Google to share 2013 data and information, with each school entering its achievement data and the planning group sharing its progress and giving opportunity for each school to give feedback. Schools agreed to take individual responsibility for sharing the information with their own Boards and staff.

Overall Outline:

The 2BCoS has identified two Achievement Challenges focus areas:

- **Literacy & Numeracy – Achieving Standard**
- **Underachievement – Achieving Potential**

Underpinned by the

“**Wellbeing Kete**”

1. Literacy & Numeracy Achievement Challenges

Initial Analysis of Data

The analysis of achievement data has identified the following areas as the initial achievement challenges for our 2BCOS

1. 21% (85/424) of students leave school without NCEA Level 2.
2. 33% (5/15) of Pasifika leave school without NCEA Level 2.
3. 34% (24/72) of Maori leave school without NCEA Level 2.
4. 57.5% of students do not go on to tertiary study (Level 4+ qualification).
5. % of students Year 1 to 10 are not meeting expectations including achieving at or above National Standards in Writing
   - Year 1 – 8: 24.6% (748 / 3115)
   - Year 9 – 10: Data not available
6. % of students Year 1 to 10 are not meeting expectations including achieving at or above National Standards in Mathematics
   - Year 1 – 8: 20.6%, (641 / 3115)
   - Year 9: 16.5%
   - Year 10: 15.9%
7. % of students Year 1 to 10 are not meeting expectations including achieving at or above National Standards in Reading
   - Year 1 – 8: 16.6% (500 / 3115)
8. % of Maori students not achieving the National Standard
   - Year 1–8 – Maths: 26.3% (138/524), Reading 22.9% (117/524) Writing 31.4% (162/524)
   - Year 9 – Maths: 19%, Reading 21%
   - Year 10 - Maths: 28%, Reading 26%

9. % of Pasifika students not achieving the National Standard
   - Year 1–8 – Maths 50.7% (69/136), Reading 39.7% (54/136) Writing 44.6% (61/136)
   - Year 9 – Numbers are too few to provide valid data
   - Year 10 - Numbers are too few to provide valid data

10. All Special Needs Students (ORS + HLN) are progressing against the goals set in their Individual Education Plans.

**2BCos Literacy and Numeracy Achievement Targets**

The immediate focus of the 2BCos is to achieve the BPS Target of 85% by the end of 2017. The aspirational target for the 2BCoS is 90% or better by or beyond 2017.

**A Writing: By the end of 2017**
- 85% of all Year 1-8 students will be achieving at or above The National Standard
- 85% of all Year 9-10 students will be achieving at or above the expected standard.

Target Groups:
- Boys from 67.2%
- Maori from 68.6%
- Pasifika from 55.4%

**B Maths: By the end of 2017**
- 85% of all year 1-8 students will be achieving at or above the National Standard.
- 85% of all Year 9-10 students will be achieving at or above the expected standard in mathematics.
- 90% of secondary school leavers will have achieved NCEA Level 1 Numeracy.
- 90% of Maori secondary school leavers will have achieved NCEA Level 1 Numeracy.
- 90% of Pasifika secondary school leavers will have achieved NCEA Level 1 Numeracy.

Target Groups:
- Boys from 77.2%
- Maori from 73.7%
- Pasifika from 49.3%

**C Reading: By the end of 2017**
- 85% of all Year 1-8 students will be achieving at or above the National Standard
- 85% of all Year 9-10 students will be achieving at or above the expected standard

Target Groups:
- Boys from 78.9%
- Maori from 77%
- Pasifika from 60.3%

**D Literacy: By the end of 2017**
- 90% of secondary school leavers will have achieved NCEA Level 1
- 90% of Maori secondary school leavers will have achieved NCEA Level 1
- 90% of Pasifika secondary school leavers will have achieved NCEA Level 1
- 65% of secondary school leavers will have achieved NCEA Level 2
- 85% of Maori secondary school leavers will have achieved NCEA Level 2
- 85% of Pasifika secondary school Maori leavers achieve NCEA L2
E Tertiary: By the end of 2017

- 60% of secondary school leavers go on to achieve a tertiary qualification Level 4 or above.
- 60% of Maori secondary school leavers go on to achieve a tertiary qualification Level 4 or above.
- 60% of Pasifika secondary school leavers go on to achieve a tertiary qualification Level 4 or above.

2. Underachievement Challenges

The Primary to Secondary Pathway

The data shows that the majority of students remain engaged in their Primary and Secondary Schools. Some of the barriers to the success of the pathway for some students include:

- Levels of transience for Maori (23.6%) and for Pasifika (21.7%)
  These are students who moved schools twice or more between 1 March and 1 November 2012, though the figures have reduced slightly in the last two years.
- There is a lower than national level of participation in tertiary study 57.9% overall of 19 year olds from this 2BCoS.
- Academic achievement in the basic competencies indicate the 85% BPS by 2017 will not be achieved equitably ie for all groups without intervention. In particular the following areas are currently barriers to the successful pathway for learners. (refer Data Charts for 2BCoS).

Writing

Overall the achievement rate is 75.4% At or Above the National Standards. Girls are doing better (84.5%) only 67.2% of boys are meeting the standard, 68.6%, Maori and 55.4%. Pasifika This is seen as the biggest challenge for the 2BCoS and the successful pathway for learners.

Maths

Overall the achievement rate is 79.4% At or Above National Standards. Girls are on track to meet the 85% target by 2017, but other groups are not – 77.2% boys, 73.7% Maori, and 49.3% Pasifika. This is seen as the second biggest challenge for the 2BCoS, especially for Pasifika, Maori, and boys.

Reading

The 2BCoS is overall on track to meet the 85% BPS primary target. Reading achievement is a challenge for some boys (78.9%), Maori (77.1%) and Pasifika (60.3%).

For all learning areas English as a second language is a major factor for Pasifika and Asian students with many arriving at school with little or no English. This is a barrier the 2BCoS will look to address.

The 2BCoS is not on track overall to meet the BPS target of 85% NCEA L2 by 2017 for all 18 year olds. Of concern is that Maori and Pasifika learners are not meeting the standard to the same degree as their peers

The 2BCoS has identified that this part of the pathway is a major focus. It has discussed the need to identify the students early in the pathway ie in the primary years so that targeted intervention can successfully raise these levels. For the secondary - retaining Maori retaining students beyond the age of 16 is seen as a major barrier to address.

2BCos Underachievement Target

- Increasing the percentage of students, who are currently achieving at, who have the potential to be achieving above.
- Increase the percentage of students achieving above National Standards by 10% for Reading, Writing and Mathematics and by 10% in NCEA with Level 1 and 2 endorsements.
3. Wellbeing Kete

Underpinning the achievement of the 2BCoS targets is the recognition that the wellbeing of students is essential. An unhappy, unhealthy or absent child is less able to learn. The establishment of the Marlborough Children’s Team is evidence that there are significant numbers of vulnerable children in the community served by the COS.

Modern Learning Practices: Preparing children for a 21st Century workforce where the skills of creative thinking, questioning, critical analysis, problem solving, team work and entrepreneurship will be critical to the success of students.

The Blenheim 2BCoS has identified that while the majority of students who remain at school achieve NCEA Level 2, that the majority of those students who leave at / before the age of 16 leave without NCEA Level 2.

Leavers data shows that the majority of these students (MGC 37 students and MBC 35 students) are leaving to attend community college or NMIT (i.e. level 1-3 courses). It must be recognised that both Community College and NMIT offer free courses to under 18 year olds and offer different programmes than those available at the Colleges i.e. they offer a greater range of vocational courses. Students also go to apprenticeships or work. As census data indicates Marlborough has a lower than national rate of unemployment.

The data also shows that while MGC has above national average rates for students entering Level 7+ tertiary courses (33.3% (61) students compared with 25.5% nationally); only 16.8%, 31 MBC students progress to university courses. 32.6% of MBC students going onto L4-6 courses (including apprenticeships).

The key issue for the CoS is that this data shows that a higher % of Maori students leave at / or before 16 years of age compared to other ethnicities. 50% of Maori leavers left without NCEA Level 2 compared with 30% European.

Retaining students at school to enable them to achieve NCEA Level 2 as a minimum qualification is key to their lifelong choices and opportunities.

Work will be done to address these issues and strengthen what is already working including:

- Gathering further data through the NZCER Wellbeing Tool. This will provide student and parent family whanau voice
- Engaging with our communities especially Iwi and Pasifika, and other cultural groups addressing engagement, attendance and retention.
- Working with agencies and The Children’s Team supporting transitions
- Building on the current inclusive practices
- Reduce the levels of the stand-downs and suspensions particularly for boys and for Maori and Pasifika. (73 Stand downs, 29 Suspensions : Levels 1 – 13 : 2013)
- Improve the retention rates i.e. numbers of students staying at school until age 17. Currently 79.7% of males and 80.7% of females remain in school (70.8% Maori, 73.3% of Pasifika, 80% Asian, 82.3% European/Pakeha). If students are not in school then they can’t gain the qualifications that will provide them with the platform for future success and options in life.
- Address the transient rates per 1000. 10.5, Maori 23.6, Pacific 21.7.

This work will provide the foundation upon which the 2BCoS can build and address the achievement challenges it has identified.
Reporting
The 2BCoS will report termly to all Boards of Trustees on progress towards meeting the identified achievement challenges.

What have schools in the 2BCOS already achieved?

The schools have been involved in a number of professional development and initiatives to address the above challenges. These have included:

**Literacy:**
- ALL - Accelerated Literacy Learning
- Reading Together
- xxxxxxx Workshop

**Maths:**
- Numeracy
- Master Specialist teacher
- ALIM - Accelerated Learning in Maths

**Science:**
- MOE Contract PD

**Health and Well being:**
- PB4L- 5 schools
- Incredible Years Teacher
- e-Learning Initiatives
- Modern Learning Practices - Early Work across the 2BCoS

**Youth Guarantees:**
- TOTSA – Award winning programme. This has developed links with employers that the COS will build on.
- ART - Achievement, Retention and Transition.
- STAR
- Gateway

**Gifted and Talented**
- Both Colleges

**Kahikitia Initiative**

**Kia Eke Panuku**
- Culturally responsive and relational pedagogy focusing on raising Maori achievement in the secondary setting
Provision of Māori Medium Education

A number of schools have provision for students who wish to learn in Māori. This includes:

- Marlborough Girls College and Marlborough Boys’ College both offer:
  - Te Reo Year 9-13
  - Te Waharoa Māori Performing Arts
  - Through TOSTA Manaaki Tāpoi - a block course focusing on Māori tourism

The pathway is not strong from two preschool (Kohanga) through the compulsory sector. There is interest from Omaka Marae to work on this and as part of engaging with their iwi the BCoS’s will be involved in these discussions.

All schools currently analyse their data and base their annual targets, strategic and annual plans on this data. This is an area the BCoS’s will work to strengthen further – using the knowledge and skills of individuals to build across all schools.

Strengths of the 2BCoS

ECE participation:

Overall the participation rate for the 2BCoS is high and there is an expectation that the BPS of 98% participation in 2016 will be achieved. The data (see appendix Data Charts for 2BCoS) shows the rates as: 95.5% overall, 94.1% Māori, 82.4% Pasifika and data is not available for Asian. There are growing numbers of Pasifika students and the recent establishment of Pasifika ECE centres indicate these needs as being met.

The 2BCoS is confident that the start of the pathway for its children has a strong foundation. One area that will need further analysis by the 2BCoS when it starts will be ways to support the Māori medium. Omaka Marae has indicated a desire to discuss this with the 2BCoS.

Tertiary

There are strong links with tertiary institutions through

- School partnerships such as MGC offering hairdressing Level 2 and 3 in conjunction with Community College
- The TOSTA programmes with NMIT and Whenuiti
- A range of institutions through STAR and Gateway Programmes
- Ongoing discussions with NMIT re future consultation opportunities
- Liaison personnel representing Tertiary institutions visiting the Colleges on an annual basis to meet with students. The Careers Evening offered annually.

The 2BCoS is aware of the need to address in the action plan the below average rate of students going on to Level 4+ qualifications.

Blenheim Protocols

The Marlborough Community, of which the 2BCoS schools are part of, has an agreed protocol that all students remain engaged in schools within the community. This applies particularly to students that are excluded. Primary schools also have a protocol that should a parent wish to move their child between schools through the year, the principals of the relevant schools contact each other in order that there is open and honest conversation regarding the reasons for the move, in order to ensure that, whether the child moves or not, they are at the center of the decision. With a number of changes of principals, it is timely for the 2BCoS to revisit and confirm these protocols and extend to the secondary level as appropriate – seeking ways to achieve them.

Modern Learning Practice – A number of the schools have worked on MLP and 21st century learning and this is an umbrella vision for the 2BCoS
The secondary schools have engaged in discussions with NMIIT and employers. This has resulted in the success of the TOTSA Academy and other partnerships. Building on this further will be an area the 2BCoS will develop to extend the pathway and raise the numbers of students attaining NCEA L2 and tertiary qualifications.

The 2BCoS has identified that transitions are an area they will explore further and look to strengthen. The traditional ones are ECE to primary, primary to intermediate, intermediate to secondary, secondary to tertiary/employment.

The data suggests the priorities are to investigate first and strengthen the following transitions:

- Into school at 5
- Year 6 to 7 for those going to intermediate
- Year 8 to 9
- Year 10 to 11
- Year 12/13 to tertiary and employment

As a 2BCoS we will make a commitment to be actively involved and support the Picton and Kaikoura CoSs which are within the Marlborough Educational Community.

The 2BCOs will review its targets annually

**Plan and Progress**

The size of our 2BCoS is such that as outlined on the overview, the more detailed analysis and planning will be developed once the resources are in place. This will include the following:

**Development of an agreed Governance Model**

- The Boards will agree their governance model and this discussion has started. Whatever the model the actions will include:
- Appointment of key resources
- Approval of the Achievement Plan
- Development of detailed Annual/Strategic Plans for the 2BCoS
- Integration of the 2BCoS actions/goals into the Strategic/Annual Plans of individual schools
- Identification of shared resources, skills etc available across the 2BCoS
- Format of the reporting to each individual school and across the 2BCoS to its Boards, communities about progress against the targets and challenges.
- Consultation with local iwi – Rangitane, Ngati Apa, Ngati Kuia, Ngati Koata, Ngati Rarua, Ngati Toa, Ngati Tama, Te Ati Awa.
- Ongoing consultation with individual schools as well as across the whole community. This started on 12th May - the whole community was invited to a launch of The Achievement Challenge for the 2BCoS and this was the first whole community consultation.
The Blenheim Community of Schools
Literacy and Numeracy - Underachievement - Wellbeing Kete

The Wellbeing Kete

Underpinning the achievement of the NZCoS targets is the recognition that the wellbeing of students is essential. An unhappy, unhealthy or absent child is less able to learn. The establishment of the Marlborough Children's Team is evidence that there are significant numbers of vulnerable children in the community served by the COS.

Modern Learning Practices: Preparing children for a 21st Century workforce where the skills of creative thinking, questioning, critical analysis, problem solving, team work and entrepreneurship will be critical to the success of students.

In order for this to be achieved for all students in Marlborough, the following actions will be taken:

Investigate and unpack the relevant research
Look at the indicators and strategies for students, teachers - know, understand and use effective indicators and strategies to improve the wellbeing of students that enables all students to achieve to their potential

Analyze data across schools
Look at attendance, truants, stand downs, suspensions, pastoral care, learning, retention, CAINs Southern Regional Health
- Establishing baseline data across the community
- Share how data is analyzed
- Establish a common methodology
- Explore how best to use local resources (e.g., FITLB, Children's team)

Develop a common set of agreed understandings of key indicators to identify and support 'at risk' students
Look at moderate and high learning needs, low income
- Establish Marlborough schools / agency practice for school transitioning students; working with newly enrolled transient students, behaviour

Share practices as to how we engage with our communities
Look at whānau, tribes, paikia
- Which strategies work and don't work - why? why not?
- What opportunities can we provide to share as a community?

Work with agencies and The Children's Team supporting transitions.

Build on inclusive practices

Decrease levels of stand downs and suspensions

Increase retention rate of students staying at school until age 17

What We Will See Happening Differently?

- Children reaching their individual potential
- Ongoing cross sector and inter agency collaboration to strengthen common understandings and best practice
- Improvement in wellbeing indicators
- Improvement in attendance data
- Improvement in retention data
- Schools working collaboratively to support families, whānau e.g., individually and through parent education
- Increased engagement by parents in the life of the schools
Challenge

Literacy & Numeracy Achievement - Reaching Standard

Target Groups - Boys, Maori, Pasifika

Writing:
- By 2017 85% of all year 1-8 students will be at or above the National Standard.
- By 2017 85% of all Year 9 and 10 students will be at or above the expected standard.

Maths:
- By 2017 85% of all year 1-8 students will be at or above the National Standard.
- By 2017 85% of all Year 9 and 10 students will be at or above the expected standard in mathematics.
- By 2017 80% of secondary school leavers will have achieved NCEA level 1 numeracy.
- By 2017 90% of Maori secondary school leavers will have achieved NCEA level 1 numeracy.
- By 2017 90% of Pasifika secondary school leavers will have achieved NCEA level 1 numeracy.

Reading:
- By 2017 85% of all students will be at or above the National Standard.
- By 2017 85% of all Year 9 and 10 students will be at or above the expected standard in reading.

Literacy:
- By 2017 90% of secondary school leavers will have achieved NCEA level 1 Literacy.
- By 2017 90% of Maori secondary school leavers will have achieved NCEA level 1 Literacy.
- By 2017 90% of Pasifika secondary school leavers will have achieved NCEA level 1 Literacy.
- By 2017 85% of secondary school leavers will have achieved NCEA level 2 Literacy.
- 85% of secondary school leavers achieve NCEA L2 by 2017.
- 85% of secondary school Maori leavers achieve NCEA L2 by 2017.
- 85% of secondary school Pasifika leavers achieve NCEA L2 by 2017.

Tertiary
- 60% of secondary school leavers go on to tertiary qualification Level 4 or above by 2017.
- 60% of Maori secondary school leavers go on to tertiary qualification Level 4 or above by 2017.
- 60% of Pasifika secondary school leavers go on to tertiary qualification Level 4 or above by 2017.

Actions to Meet the Outcome

Analyse data across schools.
Look at data within and across sectors including early childhood and tertiary
- Establish a shared understanding of a baseline standard
- Share how data is analysed

Share current learning practices
Look at developing a community of practice using research and evidence to inform teaching and learning practices
to support students reaching their full potential
- Share effective teaching and learning practices that support literacy and numeracy progressions
- Share effective professional development practices e.g. instructional rounds / triplings, PACT

Developing leadership capability
Look at strengthening leadership within and across all sectors in order to enhance student achievement
- Coach and mentor staff to implement learning practices
- Develop evaluative capability e.g. self-review

What We Will See Happening Differently?
- Ongoing work with early childhood and tertiary to strengthen our common understanding of standards and transition needs
- Ongoing cross sector and inter-agency collaboration to strengthen common understandings and “best practice”
- Common standards and assessment practices used by all teachers within schools, primary and secondary sectors, in the Blenheim Community of Schools
- Moderation teams (within sectors and across sectors)
- Improvement in literacy and numeracy results
Challenge
Underachievement - Reaching Potential

Target Groups - Boys, Girls, Maori, Pasifika

Our target is to increase the percentage of students achieving:
- above National Standards by 10% for reading, writing and mathematics
- 10% in NCEA. Level 1 and 2 endorsements.

Actions to Meet the Outcome

Investigate and unpack the relevant research

Look at effective strategies, including motivational, for students, teachers to know and understand in order that they achieve their full potential

- Carol Dweck – Growth Mindset

Shared understanding of ‘what is gifted and talented’

Look at developing a shared understanding within and across the sector, including early childhood and tertiary as to “what is gifted and talented”

- Share criteria currently used and develop common criteria
- Share how data is analysed

Explore and investigating how best to engage with our Maori and Pasifika Communities

Look at working with the communities in order to develop a understanding as to how teaching and learning for their children can better reflect their cultural learning practices.

- Combined hui

Explore and investigate the resources within the local community

Look at what resources in the local community, other than educational, can support students who are underachieving

What We Will See Happening Differently?

- Children reaching their individual potential
- Ongoing cross sector and inter-agency collaboration to strengthen common understandings and ‘best practice’
- Improvement in results
- Retention of students in education
- Students accessing a wider range of opportunities
